What mechanisms support this power? Can technology enhance this power? How can we apply this in education, health, sports, and other application domains? Answering these and related questions is the central goal of the research that is currently conducted at IPEM, the institute for systematic musicology at Ghent University, Belgium. Twilight of the Avant-Garde addresses the central problem of contemporary Spanish poetry: the attempt to preserve the

scope and ambition of modernist poetry at the end of the twentieth century. Offering a critical analysis of Luis García Montero's "poetry of experience," and the work of José Angel Valente and Antonio Gamoneda, among others, Mayhew challenges received notions about the value of poetic language in relation to the society and culture at large. Ultimately championing the survival of more challenging and ambitious modes of poetic writing in the postmodern age, this volume argues that the cultural ambition of modernist poetics remains alive and well in our age of cynicism.

Esmeralda Santiago's story begins in rural Puerto Rico, where her childhood was full of both tenderness and domestic strife, tropical sounds and sights as well as poverty. Growing up, she learned the proper way to eat a guava, the sound of tree frogs in the mango groves at night, the taste of the delectable sausage called morcilla, and the formula for ushering a dead baby's soul to heaven. As she enters school we see the clash, both hilarious and fierce, of Puerto Rican and Yankee culture. When her mother, Mami, a force of nature, takes off to New York with her seven, soon to be eleven children, Esmeralda, the

oldest, must learn new rules, a new language, and eventually take on a new identity. In this first volume of her much-praised, bestselling trilogy, Santiago brilliantly recreates the idyllic landscape and tumultuous family life of her earliest years and her tremendous journey from the barrio to Brooklyn, from translating for her mother at the welfare office to high honors at Harvard.
