In her own singularly beautiful style, Newbery Medal winner Sharon Creech intricately weaves together two tales, one funny, one bittersweet, to create a heartwarming, compelling, and utterly moving story of love, loss, and the complexity of human emotion. Thirteen-year-old Salamanca Tree Hiddle, proud of her country roots and the "Indian-ness in her blood," travels from Ohio to Idaho with her eccentric grandparents. Along the way, she tells them of the story of Phoebe Winterbottom, who received mysterious messages, who met a "potential lunatic," and whose mother disappeared. As Sal entertains her grandparents with Phoebe's outrageous story, her own story begins to unfold—the story of a thirteen-year-old girl whose only wish is to be reunited with her missing mother.

Island of the Blue Dolphins

Highly Commended at the BMA Medical Book Awards 2014 Pre-publication review: "This was the first decent book I've seen that adds good clinical advice on assessing and managing a dermatology patient. It functions not only as a clinical reference, but as a genuine replacement for any missed experience on the dermatology ward. [] this will be a valuable text to clinical medical students seeking greater exposure. One particular highlight is the clinical photos, very well done." Dermatology Year 3 Registrar Following the familiar and easy-to-use at a Glance format, this brand new title provides a highly illustrated and accessible introduction to the structure and function of skin. It is the ideal guide for any medical student required to interview and examine patients, identify skin diseases, and develop a differential diagnosis and a

treatment plan. Each chapter covers the epidemiology and pathogenesis of the disease, as well as presentations likely to be encountered in both clinical practice and exams. Dermatology at a Glance: Is comprehensively illustrated throughout with over 300 high quality colour slides and photographs Covers the key aspects of the British Association of Dermatologists core curriculum Includes 'Key points' and 'Warnings' Features a self-assessment 'picture quiz' to help test learning and recognition, in preparation for dermatology tests Includes a companion website at www.ataglanceseries.com/dermatology featuring self-assessment case studies, key point revision documents, and an image bank from the book. The descriptive diagrams and photographs, coupled with clear explanations, will help all medical students and health professionals get to grips with the identification and treatment of all of the most common skin diseases.

American Odyssey

Winner of the Newbery Medal and the National Book Award! This #1 New York Times bestselling, modern classic in which

boys are forced to dig holes day in and day out is now available with a splashy new look. Stanley Yelnats is under a curse. A curse that began with his no-good-dirty-rotten-pig-stealing-great-great-grandfather and has since followed generations of Yelnatses. Now Stanley has been unjustly sent to a boys' detention center, Camp Green Lake, where the boys build character by spending all day, every day digging holes exactly five feet wide and five feet deep. There is no lake at Camp Green Lake. But there are an awful lot of holes. It doesn't take long for Stanley to realize there's more than character improvement going on at Camp Green Lake. The boys are digging holes because the warden is looking for something. But what could be buried under a dried-up lake? Stanley tries to dig up the truth in this inventive and darkly humorous tale of crime and punishment—and redemption. Includes a double bonus: an excerpt from *Small Steps*, the follow-up to *Holes*, as well as an excerpt from Louis Sachar's new middle-grade novel, *Fuzzy Mud*.
