Created for This, a devotional for Christian women entrepreneurs, was created for you! It will guide you in growing stronger in your faith, which will lead to greater confidence in your business! Are you craving more intimate time with Jesus but are pulled in every possible direction? Your family needs you, the house needs to be cleaned, meals need to be cooked, you'd love to have a movie night with your girlfriends, and your business is just on the brink of thriving. All of these things are important but . . . how do you prioritize something as intangible as time with Jesus? Let me remind you of something you already know: When you take time with and for Jesus, everything else aligns much smoother and easier. Every other priority in your life falls into place. He is the answer to a well-run life! And the good news is you don't need to carve out hours of time every day to do that. If you can manage to squeeze 10-15 minutes of your day into a quiet spot with scripture, it will make a significant difference in your personal life and your business.

For God and Country: A Leona Foxx Suspense Thriller

This anthology explores the dynamics of shared religious sites in Turkey, the Balkans, Palestine/Israel, Cyprus, and Algeria, indicating where local and national stakeholders maneuver between competition and cooperation, coexistence and conflict. Contributors probe the notion of coexistence and the logic that underlies centuries of "sharing," exploring when and why sharing gets interrupted—or not—by conflict, and the policy consequences. These essays map the choreographies of shared

sacred spaces within the framework of state-society relations, juxtaposing a site's political and religious features and exploring whether sharing or contestation is primarily religious or politically motivated. Although religion and politics are intertwined phenomena, the contributors to this volume understand the category of "religion" and the "political" as devices meant to distinguish between the theological and confessional aspects of religion and the political goals of groups. Their comparative approach better represents the transition in some cases of sites into places of hatred and violence, while in other instances they remain noncontroversial. The essays clearly delineate the religious and political factors that contribute to the context and causality of conflict at these sites and draw on history and anthropology to shed light on the often rapid switch from relative tolerance to distress to peace and calm.

God, Country and Telepathy

Public interest in biblical archaeology is at an all-time high, as television documentaries pull in millions of viewers to watch shows on the Exodus, the Ark of the Covenant, and the so-called Lost Tomb of Jesus. Important discoveries with relevance to the Bible are made virtually every year--during 2007 and 2008 alone researchers announced at least seven major discoveries in Israel, five of them in or near Jerusalem. Biblical Archaeology offers a passport into this fascinating realm, where ancient religion and modern science meet, and where tomorrow's discovery may answer a riddle that has lasted a thousand years. Archaeologist Eric H. Cline here offers a complete overview of this exciting field. He discusses the early pioneers, such as Sir William Matthew Flinders Petrie and William Foxwell Albright, the origins of biblical archaeology as a discipline, and the major controversies that first prompted explorers to go in search of objects and sites that would "prove" the Bible. He then surveys some of the most well-known biblical archaeologists, including Kathleen Kenyon and Yigael Yadin, the sites that are essential sources of knowledge for biblical archaeology, such as Hazor, Megiddo, Gezer, Lachish, Masada, and Jerusalem, and some of the most important discoveries that have been made, including the Dead Sea Scrolls, the Mesha Inscription, and the Tel Dan Stele. Subsequent chapters examine additional archaeological finds that shed further light on the Hebrew Bible and New Testament, the issue of potential frauds and forgeries, including the James Ossuary and the Jehoash Tablet, and future prospects of the field. *Biblical Archaeology: A Very Short Introduction* captures the sense of excitement and importance that surrounds not only the past history of the field but also the present and the

future, with fascinating new discoveries made each and every season. About the Series: Combining authority with wit, accessibility, and style, Very Short Introductions offer an introduction to some of life's most interesting topics. Written by experts for the newcomer, they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics, from philosophy to Freud, quantum theory to Islam.

Digging for God

The Ambassador of God provides exhaustive and in-depth answers to very difficult questions about our cosmic origin and the planet earth. Almost everything to do with the Sun, Moon, Stars, Water, Mars, Jupiter, Aliens and most importantly - God About the book and author _____ God is real. And for the first time, experimental and observable science reveals his existence. Throughout history, many have argued the existence of God, yet discussions of the Divine have been limited to the realm of philosophy and religion. But what if nature could reveal its creator? And what if science could provide compelling evidences that we have never seen before? What if the identity of the creator behind the origin of our universe can be known for certain? What if This is what The Ambassador of God, a ground breaking look at our cosmic origin, has provided. In this probing book, difficult questions are answered. As renowned scientists and thinkers challenge the biblical

narratives for our cosmic origin, The Ambassador of God uncovers the mysteries that have been hidden from human eyes. Using compelling evidences from astronomy to investigate the underpinnings of the Bible, The Ambassador of God provides a 'cosmic objective certainty' for the existence of a universal Creator. Additionally, it unveils a well of exhaustive insights that eliminates ambiguities in our understanding. How is it possible that God is one and three distinct persons, but not three Gods? Why is the earth and the human body mostly water? Who created the sun, moon and stars? What about aliens and the other solar planets? What is the mystery and purpose behind human existence and other life forms on our planet earth? Why are we here and how did we first arrive on this planet? How do we come to understand divinity in the current scheme of scientific reasoning? How do we make peace with the grand designer behind it all? Readers seeking answers to these questions (and other similar questions) will find them here. They will not find dogma. Instead, they will embark on a journey- an experimental voyage through the lens of science that reveals the mind of God. In a "show" rather than "tell" fashion and a template that's more coherent than any prevailing secular science view, we shall find who God is! Who is the Author? Olumide Sanya is a contemporary poet and writer. Beside poetry and writing, Lumi, as he is affectionately known, helps others to achieve their dreams as a life coach. Unusually drawn to books between the ages of 4 - 9, Lumi neither enjoyed reading nor read books but spent his childhood years looking for abandoned tomes that he turned into a formidable collection. Despite being a non-reader, he realised the dream of becoming a writer in his tender years and for more than 12 years, he abandoned this dream. Until one day, God paid him a visit. But it didn't start there, it began with falling in love and writing poems about love and heartbreaks but that's another story for another year. "God has a sense of humor," says Lumi. "It's not hard to see that if you know my story-where I've been, where I'm at, and what God has planned for my tomorrow. What is most important to recognize is what God can do with a 'nobody' like me." The Ambassador of God, he notes, is not just about answers to large existential questions "It is also a road map that offers optimism and guidance in today's confused and increasingly complex modern world." You don't have to be a physics professor or a philosopher to understand Sanya's work. The Ambassador of God aims to open discussion and understanding at the broadest possible level. It is written for everyday people.

Digging for Diamonds

Just beneath the surface of many of the best known, and some less well-known, verses of sacred Scripture, there lies a hidden treasure that many casual Bible readers may never see. Quite often just a short, prayerful pause to reflect upon the written word will allow God the Holy Spirit to open our minds to deeper revelations as to the importance of a specific verse or series of verses. New ways of applying that Scripture to our lives begin to become clear to us. For that reason, pastor and author Sam Owens invites readers to grab their spiritual shovels and dig a little deeper into the treasure that is Gods Holy Word!

The Ambassador of God

In his signature style of grand storytelling, James A. Michener transports us back thousands of years to the Holy Land. Through the discoveries of modern archaeologists excavating the site of Tell Makor, Michener vividly re-creates life in an ancient city and traces the profound history of the Jewish people—from the persecution of the early Hebrews, the rise of Christianity, and the Crusades to the founding of Israel and the modern conflict in the Middle East. An epic tale of love, strength, and faith, *The Source* is a richly written saga that encompasses the history of Western civilization and the great religious and cultural ideas that have shaped our world. BONUS: This edition includes an excerpt from James A. Michener's *Hawaii*. Praise for *The Source* "Fascinating . . . stunning . . . [a] wonderful rampage through history . . . Biblical history, as seen through the eyes of a professor who is puzzled, appalled, delighted, enriched and impoverished by the spectacle of a

land where all men are archeologists.”—The New York Times “A sweeping [novel] filled with excitement—pagan ritual, the clash of armies, ancient and modern: the evolving drama of man’s faith.”—The Philadelphia Inquirer “Magnificent . . . a superlative piece of writing both in scope and technique . . . one of the great books of this generation.”—San Francisco Call Bulletin

How to Succeed in the Christian Life

God's Country takes a hilarious and irreverent swipe at religious dogma in America. Part Jack Kerouac part Sherman Alexie, it is a hilarious and irreverent novel. Two friends take a less-than-ordinary road trip through the American West. On their journey, they repeatedly encounter a religious couple who are on a pilgrimage to find God. Much to the exasperation of the protagonists, the couple continually finds tangible evidence of their devout faith in the most unlikely places. Despite the novel's humorous approach, though, there is an underlying poignant message. Without the central characters recognizing it, their own trip becomes something much deeper - a true spiritual awakening. Their journey brings them new insights about their philosophical and spiritual convictions, the meaning of friendship, and the impact that dogma has on our beliefs, our culture, and our environment.

For God, Country and Coca-Cola is the unauthorized history of the great American soft drink and the company that makes it.

From its origins as a patent medicine in Reconstruction Atlanta through its rise as the dominant consumer beverage of the American century, the story of Coke is as unique, tasty, and effervescent as the drink itself. With vivid portraits of the entrepreneurs who founded the company—and of the colorful cast of hustlers, swindlers, ad men, and con men who have made Coca-Cola the most recognized trademark in the world—this is business history at its best: in fact, “The Real Thing.”

Choreographies of Shared Sacred Sites

Here it is, "God, Country and Telepathy" has the answers for what everyone has been asking about the United States and the strange new mystery government that has taken hold of the nation. You will find out who is in charge, why and what is the purpose of it all especially the destination for the population. You will be given explanations for the increasing toxicity of the food, soda and water, the medical preference for pharmaceutical drugs to "manage" diseases both mental and physical, the real purpose of the Patriot Act and Homeland Security, why events that are horrible are often described by onlookers as not real but "surreal" or abstract, why marijuana was made illegal, why despite numerous wars on Poverty, Drugs, Discrimination nothing ever gets better. You will find out why the government is so concerned about so called "man made global warming" but is indifferent to man made contamination of food and soil. It looks like "Terra-forming" the planet. Terrorism, political intrigue, world economic convulsions and mistrust of government form the backdrop for my life in New York. From out of nowhere intelligent beings from another dimension contacted me with important news about America. This is my story over several decades and collected from saved journals, notes and recollections. The message for America is contained in this book alongside the catalog of incredible psychic experiences that often saved my life or proved illuminating in some way. They concluded that I might be able to make a difference in a leadership role and insisted I write a book to share my discoveries. If there was ever an unbelievable story to tell, this is the one. I can't imagine what I would think if I read this book unprepared; that is, not having had any personal experience with these kinds of spiritual forces. But then again, some people sky dive or swim with sharks. But I was subconsciously expecting this from a young age. I don't see things the way most people do. I sense a hidden meaning wherein lays the truth. I look for the connections to everything else, the whole fabric of existence. My mind was processing so fast everything was a blur; no time for elementary school topics or lessons. As a teenager I eagerly devoured every book I could lay my hands on concerning the occult, superstitions, magic, herbal lore, religious practices, spiritualism, astrology, numerology, psychology, mind reading, extrasensory perception and secret societies. I could have called this book "Report on the New Age" but it might not have had the same broad appeal.

Created for This

The Source

It is a place both mythic and all too real, a place thought to be the site of one of our oldest human settlements and known to be a center of ancient cultures and annihilating conflicts. It sits at the bottom of a malarial valley, the lowest place on the surface of the earth--"the overheated, earthen basement of the world," as Robert Ruby describes it. And yet, long before the world's modern religions began scrapping over its bones, Jericho was home to waves of colonization and floods of destruction. Fought over by the succeeding epochs of ancestors, the place we call Jericho is as old as the first remnants dated at 9,000 B.C.--and as current as the daily headlines. In this unorthodox biography of the first eleven thousand years in the life of a legend, Robert Ruby takes us back through time to those early settlements, then forward to the often crude but ultimately successful latter-day attempts to locate Jericho, to unearth and map and catalog its history. Beginning with the geography of place, he weaves together his own intimate knowledge of modern-day Jericho with stories of the lives and work of those explorers and archaeologists of the past whose courage often bordered on madness and whose dedication sometimes seemed the purest kind of human folly. Soldiers, scholars, engineers, adventurers--dilettantes and professionals alike, they were all dreamers drawn to this parched and dusty spot where so much of human history took place. Matching biblical accounts to archaeological evidence, sifting myth from science, phantoms from reality, Robert Ruby teases out the complex strata of the past, helping us to make sense of what exists today. With the flair of a novelist and the enthusiasm of an amateur archaeologist, he offers a tale that is part detection, part epic adventure. Above all, he gives us a work of great literary panache: witty, fact-filled, and utterly, subversively compelling.

Digging a Little Deeper in the Psalms

Do you know that just beneath your feet are deep wells of revival? Are you aware that you are standing on bottomless geysers and fountains of the anointing and mandates of our spiritual forefathers and mothers that are just waiting to be released afresh to you? God is calling us as instruments today to unstop the wells and reclaim the spiritual inheritance of our nation. This same God who visited America in the Great Awakening, the Azusa Street Revival, the Jesus Movement, the Charismatic Outpouring, and more, wants to again honor His eternal covenants with the men and women of faith who have gone before us. God is ready to loose revival fires and miracles to the spiritual descendants of people like Jonathan Edwards, Henrietta Mears, Aimee Semple McPherson, Charles Finney, William Seymour, and Frank Bartleman. But who will contend for the mantle they wore? Will you? As America stands on the brink of the judgement of God for her sins, revival is our most glorious hope. This book is a prophetic call from the heart of a pastor in Los Angeles who calls his city, his country, and you to renew covenant with God, reclaim our glorious roots, and believe for the greatest revival the world has ever known.

Digging Deeper Into God's Truth Defines a Christian

A future archeologist finds the remnants of a mysterious ancient people—us—in a wry satire that is “a marvel of imagination and . . . wonderfully illustrated” (The New York Times). It is the year 4022, and the entire ancient country of Usa has been buried under many feet of detritus from a catastrophe that occurred back in 1985. Howard Carson, an amateur archeologist, is crossing the perimeter of an abandoned excavation site when he feels the ground give way beneath him. Suddenly, he finds himself at the bottom of a shaft, which, judging from the DO NOT DISTURB sign hanging

from an archaic doorknob, is clearly the entrance to a still-sealed burial chamber. Carson's incredible discoveries, including the remains of two bodies, one laid to rest on a ceremonial bed facing an altar that appeared to be a means of communicating with the Gods and the other lying in a porcelain sarcophagus in the Inner Chamber. These dramatic discoveries give Carson all the clues he needs to piece together the entire civilization—which he gets utterly wrong. The acclaimed author and illustrator of *Castle and Pyramid*, David Macaulay presents a wonderfully tongue-in-cheek satire of both historical presumption and American self-importance.

Prophetic Ditch Digging

This isn't a feel-good churchy pie-in-the-sky treatment of this subject. It's a needed expose of what the Bible actually teaches about these sometimes controversial topics. It also focuses on the Bible beliefs and faith of the Founding Fathers of the United States, and the original meaning of the Constitution and Bill of Rights. In the process, it brings greater clarity to these much debated topics. You won't be subjected to gory details in this book, but you will be exposed to the difficult choices which surround firearm defense. Importantly, you'll be given the biblical tools needed for making hard, life and death moral choices. You've probably never heard a pastor or church leader teach on this topic. Yet it is critically important for us to understand what the Bible actually has to say about these timely issues. Subjects such as our God-given Right of self-defense, firearm ownership, concealed carry, castle doctrines, the use of deadly force, and shoot-to-kill or shoot-to-wound, are all pivotal issues for us today. Many are shocked to learn that these topics are addressed in the Bible. This book explains the Bible viewpoint, and what Jesus taught on these subjects which today are taboo in most churches. Bible passages are cited throughout, and hundreds more are included in footnotes, keeping the focus on the Bible not personal opinion. The author, SIG SWANSTROM, is a former police detective and SWAT team operator who worked in the Los Angeles area. During his years of service, he personally had many deadly force encounters with armed criminals, so his writing is real world. And today, as the owner of a highly acclaimed firearms training academy in Texas, SIG has also learned how to capture the interest of his audiences as he teaches practical skills in the unique context of biblical truth."

In The Country of Gold-digging Ants

The dramatic desert landscapes of the Big Bend country along the Texas-Mexico border reminded historian Walter Prescott Webb of "an earth-wreck in which a great section of country was shaken down, turned over, blown up, and set on fire." By contrast, naturalist Aldo Leopold considered the region a mountainous paradise in which even the wild Mexican parrots had no greater concern than "whether this new day which creeps slowly over the canyons is bluer or goldier than its predecessors, or less so." Whether it impresses people as God's country or as the devil's playground, the Big Bend typically evokes strong responses from almost everyone who lives or visits there. In this anthology of nature writing, Barney Nelson

gathers nearly sixty literary perspectives on the landscape and life of the Big Bend region, broadly defined as Trans-Pecos Texas and northern Chihuahua, Mexico. In addition to Leopold and Webb, the collection includes such well-known writers as Edward Abbey, Mary Austin, Roy Bedichek, and Frederick Olmsted, as well as a wide range of voices that includes explorers, trappers, cowboys, ranch wives, curanderos, college presidents, scientists, locals, tourists, historians, avisadores, and waitresses. Following a personal introduction by Barney Nelson, the pieces are grouped thematically to highlight the distinctive ways in which writers have responded to the Big Bend.

The Glorious Ordinary

Do you think Indian history is boring? Check out what these ancient reporters had to say about our country many centuries ago. In his book, *Indika*, Megasthenes, a Greek traveller, wrote about giant meat-eating ants that dug for gold in mines somewhere in eastern India! Hiuen Tsang, from China, was witness to an assassination attempt on King Harshavardhana at a religious gathering.
