Nutritionist and health blogger Jessica Sepel is fast becoming one of Australia's most sought-after wellness and lifestyle advocates. Living the Healthy Life is a practical and holistic 8-week plan of action to heal your relationship with food and provide a balance in your life. Expanding on the philosophy from her first book, *The Healthy Life*, Jessica uses her own inspirational journey to teach us how to quit fad dieting forever, and give ourselves the freedom to stop feeling guilty about food. She shows that by eating more of the good stuff, we nourish our bodies and optimise our cleansing and thyroid functions, which in turn stops us craving the processed foods that make us unwell. She helps us understand the key factors in overcoming stress and anxiety, and explores the benefits of sleeping and resting more.

Pick up that bread! This doctor-approved method lets you keep the carbs and lose the pounds! Fear of the almighty carb has taken over the diet industry for the past few decades--from Atkins to Dukan--even the mere mention of a starch-heavy food is enough to trigger an avalanche of shame and longing. But the truth is, carbs are not the enemy! Bestselling author John A. McDougall and his kitchen-savvy wife, Mary, prove that a starch-rich diet can actually help you lose weight, prevent a variety of ills, and even cure common diseases. By fueling your body primarily with carbohydrates rather than proteins and fats, you will feel satisfied, boost energy, and look and feel your best. Including a 7-Day Sure-Start Plan, helpful weekly menu planner, and nearly 100 delicious, affordable recipes, *The Starch Solution* is a groundbreaking program that will help you shed pounds, improve your health, save money, and change your life.

The groundbreaking discovery that shows why women need fat to lose fat. Why do women struggle so much

with weight? Can women ever lose weight and keep it off? In this research-driven and counterintuitive book, an anthropologist and a public health doctor team up to answer those questions. Blending anecdotal evidence with hard science, they explain how women's weight is controlled by evolution-but more important- they reveal how a change in diet three decades ago may be the reason women today are bigger than their grandmothers were. Explaining why fat (both in our diet and in our body) is crucial to long-term health, the authors show not only why women tend (and need) to get heavier after having their first child, but also destroy cultural myths like "all fat is bad for you." Providing a plan that can help any woman achieve a natural, healthy weight- without dieting- *Why Women Need Fat* not only gives women the tools they need to shed weight, but also a better understanding of why those last five pounds seem impossible to lose.

Desiree Nielsen is a registered dietitian, one of the public's most trusted sources of nutrition information. In *Un-Junk Your Diet*, she teaches readers about anti-inflammatory dieting in a way that's engaging, funny, and approachable. This book begins with a call to action to help shake up perceptions of what food means to our bodies and illuminate all the ways that marketers co-opt healthy eating messages to coerce us into choosing food that is unworthy. In addition, an in-depth look at the fundamentals of nutrition—with a splash of myth busting—strengthens readers' abilities to resist the latest nutrition headline and continue making healthier choices. Because there is no one right way for every individual eater, Nielsen offers a brief exercise in self-discovery before providing four distinct plans for becoming healthier. They range from the gentle and gradual to the two-week kick start that appeals to both detox seekers and vacation slimmers.

Yet that message is still lost on many women who fear that weight lifting will make them bulky, turn their skin green, and give them Incredible Hulk muscles like their boyfriends'. Women have more options than step aerobics or running on a treadmill to shed pounds: They can weight-train in a very specific manner designed to make the most of a woman's unique physiology. Lift to Get Lean is the first beginner's guide to strength training from Women's Health that is written specifically for women by a woman. Holly Perkins is a certified strength and conditioning specialist (CSCS) who has been teaching the fat-burning secrets of weight training exclusively to women for more than 20 years. Perkins doesn't follow men's rules when it comes to building muscle. Lift to Get Lean delivers a three-step system: Technique, Movement Speed, and the Last 2 Reps Rule, which make all the difference in developing the kind of strong, lean, and sexy body women want. Perkins offers four different 90-day training programs

that efficiently build functional strength along with leaner legs, stronger arms, and a sexier butt.
