Written in the 1950s, this book defines and anticipates, in a prophetic way, the role of the laity in the Church, and the intimate relationship between the Church and the world. These two themes were recognized by the Second Vatican Council especially in the two constitutions "On the Church" and "The Church in the Modern World." Von Balthasar's "bastions" are barriers erected over the centuries which separated the laity from the clergy and the Church from the world. He pleads for a Church that interprets "the signs of the age," grasps them and answers them, allowing herself to be awakened by the Holy Spirit and by the age "from the bed of historical sleep for the dead of today." The new function of the Church is to be the "yeast of the world"--she must understand herself as the "instrument of the mediation of salvation to the world." Stressing that the hour of the laity is sounding in the Church, von Balthasar makes it clear that the "true program of the Church for today is: the most powerful radiance into the world through the most immediate imitation of Christ."

Hans Urs Von Balthasar and Protestantism

This is the story of the cult of the Virgin Mary. For centuries, Mary has been venerated, and her virginity and humility promoted as an example to Christian women. In some theological circles, the cult of the Virgin has been blamed for supporting the cause of social and political oppression. In this history, the author throws light on both theories. In western Europe, she argues that the Virgin's significance - in terms of attitudes to womanhood and motherhood - has been closely bound up with economic and social factors.

"Saward succeeds admirably in gathering all of the elements of Balthasarian vision together so that the reader can see how certain key moments motivate his whole corpus of writings".

The Beauty of Christ

This series offers a range of authoritative studies on people who have made an outstanding contribution to Christian thought and understanding. The series will range across the full spectrum of Christian thought to include Catholic and Protestant thinkers and to cover East and West, historical and contemporary figures. By and large, each volume will focus on a single "thinker", but occasionally the subject may be a movement or a school of thought. Hans Urs von Balthasar (1905-88) is now acknowledged as one of the twentieth century's greatest Roman Catholic theologians -- along with such others as Yves Congar, Bernard Lonergan, and Karl Rahner. His voluminous writings deal with the whole range of Christian doctrine. The significance of Scripture, the notion of creation, the nature and purpose of people, the meaning of faith, the nature and work of Christ are all topics on which Balthasar has written. English translations of Balthasar's major works have only been available in the last twenty years. Until now, there has been no substantive English-language introduction to Balthasar's thinking. Ideal for students and general readers, this book, at last, clearly illuminates the entire range of his achievement.

Light in Darkness

If «the economic Trinity is the immanent Trinity», as Karl Rahner said, then what difference does it make for how we read the Bible? This book takes up the discussion that has dominated the last several decades of Trinitarian theology - that of Rahner's Rule - and brings it into dialogue with the longer history of the doctrine, particularly with the history of interpretation of scripture. The history of Trinitarianism is the history of complex interpretive moves, a long conversation in which the Christian church has sought to learn how to ask the right questions of scripture. Surveying recent theological projects and learning from their successes and failures, *The Image of the Immanent Trinity* argues that the eternally perfect fellowship of Father, Son, and Spirit is truly present for our salvation in Christ who, as the image of the invisible God, secures God's presence in the economy of salvation as the image of the immanent Trinity.

Theologian, poet, public intellectual, and clergyman, Rowan Williams is one of the leading lights of contemporary British theology. He has published over twenty books and one hundred scholarly essays in a distinguished career as an academic theologian that culminated in his appointment as Lady Margaret Professor of Divinity at Oxford University. Williams left this post to serve in the Anglican Church, first as Bishop of Monmouth, then Archbishop of Wales, before finally being enthroned in 2003 as the 104th Archbishop of Canterbury. In this collection of essays, a talented younger generation of Australian theologians critically analyzes the themes that bind together Williams's theology. These sympathetic yet probing essays traverse the full breadth of Williams's work, from his studies on Arius, the Desert Fathers, Hegel, and Trinitarian theology to his more pastoral writings on spirituality, sexuality, politics, and the Anglican Church.

The Service of Glory

The eminent theologian, Aidan Nichols, OP, plunges into the depths of the great nineteenth-century Jesuit poet Gerard Manley Hopkins. Nichols's profound insights into the theological meanings of Hopkins's poems exhibit the truth of beauty and the beauty of truth.

Hans Urs Von Balthasar

As a text for college or graduate student courses, as a scholarship reference, and as a guide for interested educated laity, "The Trinity and the Paschal Mystery" is an exhilarating and invigorating journey into the most central of the Christian mysteries, the triune God. The book is a valuable and thought-provoking resource that complements and enriches current theologies of the Trinity.

On Rowan Williams

These essays reconceptualize the body and its desires, argue that Christian sexuality is meaningful for the good of the Church and that bodies are the mobile products of changing discourses and regimes of power.

The Trinity and the Paschal Mystery

In this book Ian Wallis offers a new way of looking at Holy Saturday and its meaning for us, theologically, practically and liturgically. The period after the crucifixion and before belief in the Resurrection is of central importance, he suggests, in understanding the Christian Movement. Drawing on contemporary studies into bereavement, the author suggests that the grief of Jesus' followers was shaped by their Jewish heritage, and by their apprenticeship under Jesus. There is much in this study which throws light not only on the beginnings of Christian faith, but also on the contemporary challenge of maintaining Jesus' accessibility and significance for the pursuit of an authentic humanity.

Mary for Today

In spring 1996, Saint Joseph's University hosted the exhibition "The Holy Family as Prototype of the Civilization of Love: Images from the Viceregal Americas," which commemorated the 75th anniversary of the introduction of the Feast of the Holy Family to the liturgical calendar of the Universal Church. The exhibition displayed paintings from the Spanish Colonial period, rare books and engravings from seventeenth- and eighteenth-century Europe, and lithographs and devotional paintings on tin from nineteenth-century Mexico and New Mexico. Culled from private collections, galleries in Miami, New York, Washington D.C., and institutional collections of several Catholic universities, these art works offered a visual chronicle of the evolution of devotion to the Holy Family.

Time, Eternity, and the Trinity

Empress and Handmaid

Why has the reality of other religions become a big problem for Christianity? In the past, Christianity has been able to largely ignore other religions but in recent decades, not just the reality, but the vitality of other religions has become a challenge. This accessible book tackles a number of questions arising from these changes: is belonging to one religion rather than another merely a matter of cultural preference?; is salvation the same among all religions?; and what can be learned from other religions? Considering wider issues of how modernity has defined "religion," Gavin D'Costa provides a substantial critique of secular ways of controlling religions, and shows how Christianity is very well suited to deal with religious plurality at the doctrinal and social level. The book makes a decisive contribution to debates about the clash between Islam and the West, arguing that the major threat to religious freedoms come from secularism, and that Islam and Christianity both have the resources to develop a vibrant and pluralist "public square" informed by intellectual debate. By engaging with the core questions and suggesting a pathway through the various answers that have been proposed in recent years, this is an ideal introduction to the field, and one which will help stimulate ideas and discussions.

The City of Rome and the World of Bede

Among Hans Urs von Balthasar's vast corpus of theological works not one is found devoted specifically to an elaboration of a doctrine of God the Father. This study gathers and interprets Balthasar's many scattered reflections on the mystery of the God of Jesus Christ - especially those concentrated in his Theological Dramatic Theory - on its way to constructing an approach towards a theology of God's Fatherhood. Several of the most significant current issues in theology are addressed in this study, such as a reinterpretation of divine omnipotence in terms of the Father's all-powerful powerlessness, the question of the possibility of coexistence between infinite freedom and finite freedom, an understanding of the immutability of God that allows for the Father's being affected in some way by finite freedom, and an account of the Father's generative act that sees as integral

to it a properly paternal modality of receptivity.

Christianity and World Religions

With this lucid and profound commentary on the last three parts of the Catholic Catechism, Aidan Nichols provides one of the richest and most solidly-based accounts in English of how Catholic Christians should worship, behave and pray.

Mary and the Eucharist

One of the vital issues in contemporary Christian theology is the problem of a renewed understanding of God's eternity and its relation to time. This is not merely a peripheral doctrinal issue, but lies at the heart of our understanding of God and humanity, and contributes to our entire worldview. This study focuses on a long-standing debate between two competing views on God's eternity: one focused on God's absolute timelessness in classical theism, and the other on God's temporal everlastingness in contemporary panentheism. In contrast to both of these well-worn options, this book presents an alternative Trinitarian analogical understanding of God's eternity and its relation to time, especially through a critical reflection on Karl Barth's and Hans Urs von Balthasar's engagement of the issue. This analogical approach, based on the dynamic and dramatic concepts of God's being-in-relation and of the Triune God's communicative action in eternity and time, has the potential to resolve the debate between absolute timeless eternity and temporal everlasting duration.

The Contemporary Theologians

In a time when Catholic Laity are being particularly challenged to develop as Laity, the Swiss theologian Hans Urs von Balthasar's work, drawing on Scripture and Tradition, offers a rich source of understanding of what it means to be a lay person; what it means to be a Catholic man or a Catholic woman; what it means to participate in liturgy. Most of all however his work offers a profound understanding of what it means to be in the world as a follower of Christ in his Church. Bevil Bramwell OMI offers an extensive survey of the theology of von Balthasar comparing it with other luminaries of the twentieth century such as Joseph Ratzinger, Karl Rahner SJ, Yves Congar OP, Henri de Lubac SJ and John Paul II. There are also numerous references to the secondary literature and a substantial comparison with the teaching of the Second Vatican Council. This book is a tribute to one of the great theologians of the Twentieth century.

Saving Beauty

How can one believe in a God of love amid all the evil and suffering found in the world? How does one do theology 'after Auschwitz', while vast numbers of people still have to endure violent oppression every day? This book seeks to address such questions from a standpoint informed by life in Africa, which in the face of extraordinary difficulties bears witness to Gospel hope by demonstrating forgiveness in action and promoting reconciliation. The work unfolds in two parts. In the first part, a description of the misery that characterises much of life in Africa

in the recent past opens up to a theological consideration of the underlying causes and of God's response to them. In the second part, the joy which is so characteristic of life in Africa even in places of immense suffering sets the scene for detailed reflections on liturgy, memory, forgiveness and hope.

In the Fullness of Faith

It was the conviction of the Swiss theologian Hans Urs von Balthasar (1905-1988) that the reservation of priestly ordination to men is intrinsically connected to the significance of the incarnation of Christ as a male. Von Balthasar was convinced that the incarnation of the eternal Son as male plays an intrinsic role in his economic mission. The present study is an attempt to understand the teaching of the Magisterium reserving priestly ordination to men by an exposition and analysis of the revelatory significance of the incarnation of Christ as male, and the relation of his maleness to priestly ordination according to the theology of von Balthasar.

The Cumulative Book Index

Say It Is Pentecost completes Aidan Nichols's presentation of the great theological trilogy of Hans Urs von Balthasar. This book offers a comprehensive summary and interpretation of Balthasar's logic. Nichols also considers the way in which the early volume *The Truth of the World* points forward to the theological aesthetics and dramatics and also how *Theo-Logic's* concluding volumes pick up the themes of *The Glory of the Lord* and *Theo-Drama*. He looks particularly at how Balthasar relates revelation of divine beauty and divine goodness to the unfolding of divine truth. The book concludes with a retrospective review of the trilogy as a whole. Praise for Aidan Nichols's Introduction to Hans Urs von Balthasar series: "[T]he definitive commentary on Balthasar's great theological trilogy. . . . Let no one now complain that they do not know how to find their way through the works of Balthasar. Father Nichols is at hand as a trustworthy guide."--John Saward, author of *The Way of the Lamb* "[These volumes] confirm Aidan Nichols as an authoritative guide to the writings of Balthasar."--*Heythrop Journal* "Fr. Nichols's latest book--the first work on Balthasar devoted exclusively to *Theo-Logic* to be published in any language--should be warmly received. Fr. Nichols not only presents Balthasar's thought systematically but provides numerous examples and

other explanatory notes that make it easier to grasp. Say It Is Pentecost is particularly attentive to Balthasar's insistence on constantly relating the unfolding of divine truth to the revelation of beauty and goodness throughout history."--Crisis Aidan Nichols, O.P., is prior of the Dominican community at Blackfriars, Cambridge. "Readers will find that the metaphysics explained by Nichols provides a key to a fuller understanding of the earlier parts of Balthasar's trilogy. This alone makes Say It Is Pentecost essential reading for those seeking a deeper understanding of Balthasar's work as a whole."--Theology "While Balthasar's text is fairly demanding, Nicholas manages to render it accessible. . . . A fine introduction to Balthasar's theology of truth. Nicholas is to be commended for his scholarly yet accessible companions to the Esthetics, the Dramatics, and now the Logics."--Theological Studies "Like a river in spring fed from countless mountain torrents, Balthasar's trilogy sustains a vigorous prose to the very end, through fifteen volumes! What can be turbulent and disorienting in this adventure, Nichols has transformed into a gentle flowing stream. . . . According to Nichols' reckoning, Balthasar's 'dogmatics' is due to be an essential thread in the future Catholic tapestry. For this reason, a guide such as Nichols provides an ancillary service that should prove to have a long shelf life."--Josephinum Journal of Theology

Queer Theology

This text discusses what both the early Fathers and later writers such as Calvin and Sergius Bulgakov said about the association of beauty, both in nature and art, with the Holy Spirit. It also considers topics such as divine glory, inspiration and the eschatological character of beauty.

From Misery to Hope

Art and theology are two different ways of making meaning. Art is a matter of inspiration and intuition. It needs neither standards, nor guidelines. It does not follow predictable patterns, nor is it determined by any specific goal. Theology is similar in that it generates meaning in order to understand and communicate faith. It explores the continuities and discontinuities between divine and human creations through metaphors, images and the play of ideas. Unlike art however, theology is primarily a matter of reason. It follows patterns of consistency and coherence, and is shaped by the will to clarify and explain. Can art offer a way of understanding the nature of theology despite these differences? The twentieth

century Swiss theologian Hans Urs von Balthasar (1905-1988) wrote a seven volume masterpiece on theological aesthetics. He restructured theology around basic aesthetic concepts like form and beauty. The present study offers a critical analysis of Balthasar's work against the background of contemporary debates on theological foundations. The author approaches this task through a careful rereading of two of Balthasar's key sources: Nicholas of Cusa and Friedrich Wilhelm Joseph Schelling. In this way the author rediscovers hidden undercurrents in modernity from Renaissance aesthetics to German Idealism. The result is a theological aesthetics rooted in tradition and capable of understanding and communicating faith in the face of present day challenges.

Death and dying are inseparably linked with life. They are self-evident and at the same time cannot be grasped by reason alone - they are ordinary, and yet so incredible. In these meditations, the acclaimed theologian Hans Urs von Balthasar investigates this great mystery. He asks about the contradiction, inherent in all men, of wishing to achieve something "imperishable in transitoriness" and gives an answer culled from the Scriptures and from the Church Fathers. In looking at this contradiction that appears to be irreconcilable from a purely human perspective, Balthasar tries to find something in the human existence that the Christian solution can take up, for if there was nothing, one would not see how Christianity could connect to our existence at all. This starting-point becomes fully visible and effective only when the Christian interpretation itself becomes evident, otherwise it remains open to dangerous misinterpretations. The emphasis lies in the word "mystery." The reader must meditate on these profound ideas which are demanding both in language and contents - then the reading will inspire him with insights and prospects that will, while not resolving the paradox "that everything earthly is inscribed on the sand of transitoriness," will anchor it in the Christian faith, which claims that man is eternal and that God himself became man in the person of Jesus Christ to help us attain to that eternal life.

To the Heart of the Mystery of Redemption

In the 1960's, Fr. Hans Urs von Balthasar gave two conferences in Paris on the subject of redemption. One considered the perspective of Christ the Redeemer. The other gave a view of the redemption from the perspective of Mary and the Church, consenting to the sacrifice of Jesus. These two conferences are what Fr. Jacques Servais, S.J., in his foreword calls "a lantern of the Word," shedding light amidst the advancing turmoil of the postconciliar period. These conferences were later collected by the eminent theologian Henri Cardinal de Lubac, S.J., in a single volume along with an anthology of meditations on the Passion by the mystic Adrienne von Speyr, and selected by von Balthasar. In this new edition, prepared for the centenary of the birth of Hans Urs von Balthasar, Fr. Servais, the director of Casa Balthasar in Rome, provides an extensive postscript illuminating the text along with the original preface by de Lubac.

The Art of Equanimity

Balthasar is one of the most influential of Catholic twentieth-century theologians, and his oeuvre is astonishing in its range and amplitude. This together with a style of writing that is cyclic rather than systematic makes his work difficult to assimilate. The author has overcome this obstacle by finding an integrating motif that makes coherent sense of the whole. That motif is the concept of 'form'. The first section of the book deals with that 'form': its genesis, its meaning as a whole which is greater than the sum of its parts, and as a revelation of the mystery of Being. Section two shows how, when the concept is applied christologically, it signifies the incarnate form of Jesus as expressing the glory of the triune God, the source of Being. Section three, which deals specifically with Balthasar's soteriology, demonstrates how because of his mission to save a sinful world the form of Jesus has to undergo suffering and death and become apparently 'formless'. While indicating that the main lines of Balthasar's theology are rooted in tradition, the book also illustrates the radicalness of his approach. His dialogue with theologians and philosophers, both ancient and modern, is discussed and evaluated throughout.

Towards a Theology of God the Father

It is not a question of using either the palpable world or the intellect when trying to prove God's existence. Anselm apprehends being's very intelligibility as making it amenable to divine traces - that turn out to be God's «muted» communication. Anselm practices in this sense «a blending of horizons» - i.e. tradition (Plotinus, Augustine, Benedict). We human beings owe our own rationality to the same God who created the universe, us and our minds. The appreciation of a thus constituted reality unleashes a remarkable and refreshing fecundity (Möhler, Guardini, Barth, von Balthasar). Anselm seems to state: «Thinking - insofar as it is intelligible - is being.» This makes Anselm's approach topical for our days. Increasingly the world consists of information and news. Truth claims are filtered from what is thought. Perhaps it is this Anselmic 'reduction' of reality to thought which opens a perspective for genuine emancipation and authentic humanization. The monastery afforded the proper ambience to live and apprehend this 'reduction'.

Gregorianum

Written in 1951 (with a second edition in 1961), this book takes its place within an impressive array of attempts to wrestle with Karl Barth's theology from a Catholic point of view. The book adopts the twofold strategy of presenting an exposition of "the whole of Barth's thought," while doing so for the purpose of a confessional dialogue among theologians. Not to be construed as an "Introduction to the Theology of Karl Barth, Balthasar's effort is to provide a Catholic response which, though not "official", nonetheless seeks to express a common direction and movement within Catholicism. The Theology of Karl Barth—shows how a rethinking of basic issues in fundamental theology—concerning the relation of nature and grace, philosophy and theology, the "analogy of being" and the "analogy of faith"—might lead to a rapprochement between the two great rivers of Christianity, without compromising the center of gravity of either. In the process the book makes a major contribution to renewed understanding of Christianity in a secularized modern world. Co-published with Communio Books. "No one should think he can quickly dispose of questions posed here offhandedly. It was precisely

because writers were in the habit during the time of the Reformation of theologizing with a hammer that the split in the Church became irreparable. And to work at overcoming this split means much effort. Only the patient need apply."É Ñ Hans Urs von Balthasar

Say it is Pentecost

He descended into hell. Hans Urs von Balthasar, one of the most influential theologians of the twentieth century, placed this affirmation of the Nicene Creed at the heart of his reflection on the world-altering events of Holy Week, asserting that this identification of God with the human experience is at the "absolute center" of the Christian faith. Yet is such a descent to suffering really the essence of Catholic belief about the mystery of Holy Saturday? Alyssa Lyra Pitstick's *Light in Darkness* -- the first comprehensive treatment of Balthasar's theology of Holy Saturday -- draws on the multiple yet unified resources of authoritative Catholic teaching on Christ's descent to challenge Balthasar's conclusions. Pitstick conducts a thorough investigation of Balthasar's position that Christ suffered in his descent into hell and asks whether that is compatible with traditional teaching about Christ. *Light in Darkness* is a thorough argument for the existence and authority of a traditional Catholic doctrine of Christ's descent as manifested in creeds, statements of popes and councils, Scripture, and art from Eastern and Western traditions. Pitstick's carefully argued, contrarian work is sure to spur debate across the theological spectrum.

Laity: Beautiful, Good and True

This book treats Balthasar's engagement with Protestantism, primarily in the persons of Martin Luther and Karl Barth, a topic which has not yet been given the attention it deserves. Furthermore, instead of focusing on particular theological issues, such as soteriology or ecclesiology, the book examines the implications of this engagement for Fundamental Theology. At the very root of Luther's confrontation with the Catholic Church of the Late Middle Ages, lies his antipathy for Aristotle and for "natural theology." In other words, the Protestant difference has as much to do with its suspicion of the treatment of faith and reason in Catholic thought as it does of the Catholic treatment of faith and works. This is a suspicion that is only exacerbated in Barth's identification of the "analogy of being" with the Antichrist. Balthasar takes these criticisms very seriously, and, in addressing them, not only has much of relevance to say to the Catholic-Protestant differences, but also has much to say to the Yale-Chicago differences. In short, this study treats primarily Balthasar's dialogue with Luther and Barth, with the hope that this dialogue will shed light on the impasse that seems to have arisen between the so-called "correlation" and "revelocentric" schools of contemporary theology. If, indeed, Christ is the "concrete universal," then we shouldn't have to decide between the two. Part of this proposal, then, is to emphasize the fact that Balthasar refuses to separate Fundamental and Dogmatic theology.

stumbling block to non-Catholic Christians is treated in this book. Rather than avoiding what is most glaringly un-modern or what is most criticized by non-Catholics, Balthasar reviews these elements one by one, and shows how they are rooted in the central Christian mysteries and the commonly accepted tradition. What is specifically Catholic is not defended polemically, but described in such a way that others can see, even from their own point of view, the inner consistency with the mystery affirmed by all. Here is a form of thought which is truly ecumenical precisely because it is fully Catholic.
