The Fantastic Inventions of Nikola Tesla

Free energy and anti-gravity are possible today. The theory of zero point energy shows that there are great fluctuations of electrical field energy embedded within the fabric of space. Some examples: Inventor T Henry Moray produced a fifty-kilowatt free energy machine in 1930; The Pons/Fleischmann cold fusion experiment produced tremendous heat without fusion. The chapters in this remarkable book include: Artificial Gravity; Stepping Down High Frequency Energy; Noise as a Source of Energy; Macroscopic Vacuum Polarisation; Cohering the Zero-Point Energy; The Holistic Paradigm; Electrolytic Fusion - A Zero-Point Energy Coherence?; and, Scalar Currents and Scalar Waves.

Ancient Aliens on Mars

Field Propulsion by control of gravity is a space drive mechanism of new kind. It is based on gravito-inertial effect predicted by BSM Supergravitation unified theory and called a Stimulated Anomalous Reaction to Gravity. It is activated by a Heterodyne Resonance Method invoking Quantum mechanical interactions between oscillating ion-electron pairs and the space-time continuum.

Author David Thomson and Jim Bourassa have founded the Quantum AetherDynamics Institute, an organization dedicated to understanding the Aether. For the first time in human history, the Aether is fully quantified based upon empirical data. Through a very simple observation noted nearly 200 years ago by Charles Coulomb, the electromagnetic units have been corrected of an error that has led physics astray for so long. Now, electrodynamics expresses in simple dimensional equations, the neurosciences unite with quantum and classical physics, and we can precisely model the geometry of subatomic particles.

Boss Bitch

An asteroid transformed Mars from a lush planet with rivers and oceans into a bleak and icy hell. Is Earth condemned to the same fate, or can we protect ourselves and our planet from extinction? In his most riveting and revealing book yet, Graham Hancock examines the evidence that the barren Red Planet was once home to a lush environment of flowing rivers, lakes, and oceans. Could Mars have sustained life and civilization? Megaliths found on the parched shores of Cydonia, a former Martian ocean, mirror the geometrical conventions of the pyramids at Egypt's Giza necropolis. Especially startling is a Sphinx-like structure depicting a face with distinguishable diadem, teeth, mouth and an Egyptian-style headdress. Might there be a connection between the structures of Egypt and those of Mars? Why does NASA continue to dismiss these remarkable anomalies as "a trick of light"? Hancock points to the intriguing possibility that ancient Martian civilization is communicating with us through the remarkable structures it left behind. In exploring the possible traces left by the Martian civilization and the cosmic cataclysm that may have ended it, *The Mars Mystery* is both an illumination of our ancient past and a warning--that we still have time to heed--about our ultimate fate.

Incredible Technologies of the New World Order

Occult Ether Physics - 2010 3rd Revised Edition

Why were the Allies worried about an atom bomb attack by the Germans in 1944? Why did the Soviets threaten to use poison gas against the Germans? Why did Hitler in 1945 insist that holding Prague could win the war for the Third Reich? Why did US General George Patton's Third Army race for the Skoda works at Pilsen in Czechoslovakia instead of Berlin? Why did the US Army not test the uranium atom bomb it dropped on Hiroshima? Why did the Luftwaffe fly a non-stop round trip mission to within twenty miles of New York City in 1944? Reich of the Black Sun takes the reader on a scientific-historical journey in order to answer these questions. Arguing that Nazi Germany actually won the race for the atom bomb in

late 1944, Reich of the Black Sun then goes on to explore the even more secretive research the Nazis were conducting into the occult, alternative physics and new energy sources. The book concludes with a fresh look at the "Nazi Legend" of the UFO mystery by examining the Roswell Majestic-12 documents and the Kecksburg crash in the light of parallels with some of the super-secret black projects being run by the SS. Reich of the Black Sun is must-reading for the researcher interested in alternative history, science, or UFOs!

The Coming Energy Revolution

In a science fiction thriller set in modern America, a male alcoholic stoner obsessed with faster than light travel must evade and outsmart the near omniscient Project Luddite and It's All Seeing Eye to see his dream come true. Sample Chapter - Debunking the Debunkers I made my way from my bedroom where I had just steamrolled several hits of cannabis off of my bong, getting nice and high, to my home office. I went to Google first, I found an article called How I Control Gravitation by Thomas Townsend Brown. It discusses an experiment of his using two 44lb lead spheres suspended by a wire, positive for one sphere, negative for the other sphere with a glass rod in between the spheres. When 120kV of steady DC electricity was turned on Brown claims the apparatus moved in the direction from negative sphere to positive sphere. Now there are lifter builders out there who will claim the Biefeld-Brown effect is nothing more than ion wind, electrically charged air, and that air flow is what lifts the craft into the air. They have even put lifters in a vacuum to show the propulsion effect will not work without air and would therefore be useless in the vacuum of space. Lifters are missing what appears to be a critical component, the dielectric between the positive and negative plates, in this example the glass rod or in the ARV the plastic, G10, or epoxy resin. Otherwise, for there to be movement of the 44lb spheres, Brown's lab would had to have a hurricane blowing through it. That does not seem likely. Occam's Razor says the simplest reason is the most likely one, even if that reason defies the known laws of physics. The experimental data trumps theory. Further research was required though. I found one paper, Twenty First Century Propulsion Concept: <http://www.otherhand.org/wp-content/uploads/2012/04/Talley-paper-propulsion-concept.pdf>, in the Anomalies section, a series of experiments with pulsed voltages was done. Generally, no motion of the test devices was observed, except in Test No. 69 (the last test) where a very small but detectable motion was seen. The only experiment producing a result was when the 19kV was applied to the positive plate at a pulse rate frequency of 600 Hz with a solid dielectric between the capacitor plates that caused the torsion pendulum to twist ever so slightly, applying a small but consistent pressure. I took another break to smoke some more cannabis from my bowl. I calmly watched the smoke fill the room as I exhaled. Euphoria and certainty that I was onto something filled my mind like the smoke in the room. Another paper, Asymmetrical Capacitors for Propulsion: [http://www.forbiddentechnology.org/pdfs/Asymmetrical Capacitors for Propulsion.pdf](http://www.forbiddentechnology.org/pdfs/Asymmetrical%20Capacitors%20for%20Propulsion.pdf), in the Observations section detailed one of the experiments where

movement was seen in a vacuum. Only the capacitor with a solid dielectric between the positive and negative capacitor plates moved in a vacuum when the 50kV steady DC was first applied to the positive capacitor plate. A rotation of about 1/8th was seen through the viewing port of the vacuum chamber. A spark accompanied the movement which stopped just after it started. The conductors of the experiment speculated that material had been ejected when the spark occurred and that that was why the capacitor moved. That seems unlikely to me, after all, why weren't there sparks and material ejected when the other capacitors were tested? Furthermore, if they had encased the Brown capacitor with epoxy that would have eliminated the spark and they would have been able to tell if the Brown capacitor would have still moved. The key appears to be high voltage, the higher the better, those last two experiments used 19kV and 50kV, Brown used 120kV steady DC, and the ARV supposedly used between 500kV - 1,000kV DC, pulsed into the capacitors.

EXPERIMENTS DEALING WITH. . . TIME TRAVEL, ALTERNATIVE AND FREE ENERGY, AS WELL AS A POSSIBLE NAZI "FLYING SAUCER" CONNECTION. Nikola Tesla was the genius credited for creating much of modern, electrical technology. Yet, his contributions have been largely forgotten. An examination of Nikola Tesla's lost papers -- some of which were confiscated by the U.S. government after his death -- shows that Tesla was interested in and experimented with many concepts that have been regarded until recently as "wild ideas." It's no surprise that Tesla was loath to speak of these kinds of interests -- after all, even now these areas of study still come under fire by the majority of mainstream scientists who refuse to use their imaginations and intellect and scorn such matters with terms such as "voodoo science" and "unadulterated quackery." It is now known that there have been a number of top-secret programs that were devoted to either investigating or, shockingly enough, actively using technology based on some of Tesla's more unorthodox ideas. Both the United States and Russia have active Particle Beam and RF (radio-frequency) weaponry that has been in operation since the early 1970s -- all as a result of Tesla's early 19th and 20th Century experiments. To say that there are other black budget projects involving Tesla-based research would vastly underestimate the total amount of research and development being conducted right now by many countries worldwide. And these are the projects that we know about. Who knows how many deep, dark, secret projects are being conducted right now with science that could be decades, even hundreds of years, beyond what civilian science knows about today? This work exposes such topics as: Reverse Gravity -- Free Energy -- Contact With Hidden Dimensions -- Mysterious Radio Signals From Space -- Earth Changes -- Freak Weather Patterns -- Electric Death Rays -- UFOs -- Particle Beam Weapons and much, much more.

Defying Gravity

The Lost Journals of Nikola Tesla

While the government wants you to think that aliens are buzzing military bases, this book presents the overwhelming evidence that most "nuts and bolts" UFOs are made on earth and piloted by earthlings. This important book reveals the secret technologies German scientists captured at the end of World War II were working on, and takes us right up to today's state-of-the-art flying machines.

The Mars Mystery

Decoding the Message of the Pulsars

This riveting work of investigative reporting and history exposes classified government projects to build gravity-defying aircraft--which have an uncanny resemblance to flying saucers. The atomic bomb was not the only project to occupy government scientists in the 1940s. Antigravity technology, originally spearheaded by scientists in Nazi Germany, was another high priority, one that still may be in effect today. Now for the first time, a reporter with an unprecedented access to key sources in the intelligence and military communities reveals

suppressed evidence that tells the story of a quest for a discovery that could prove as powerful as the A-bomb. The Hunt for Zero Point explores the scientific speculation that a "zero point" of gravity exists in the universe and can be replicated here on Earth. The pressure to be the first nation to harness gravity is immense, as it means having the ability to build military planes of unlimited speed and range, along with the most deadly weaponry the world has ever seen. The ideal shape for a gravity-defying vehicle happens to be a perfect disk, making antigravity tests a possible explanation for the numerous UFO sightings of the past 50 years. Chronicling the origins of antigravity research in the world's most advanced research facility, which was operated by the Third Reich during World War II, The Hunt for Zero Point traces U.S. involvement in the project, beginning with the recruitment of former Nazi scientists after the war. Drawn from interviews with those involved with the research and who visited labs in Europe and the United States, The Hunt for Zero Point journeys to the heart of the twentieth century's most puzzling unexplained phenomena. From the Hardcover edition.

Secrets of Antigravity Propulsion

The biggest mystery of our era finally gets the balanced and unbiased investigation it deserves. 'ANTIGRAVITY PROPULSION: Human or Alien Technologies?' is a far-reaching exploration into the UFO phenomenon that covers all possible scenarios and discounts nothing. Written by novelists, filmmakers and independent researchers James Morcan & Lance Morcan, with a foreword by advanced interstellar propulsion systems expert Grant Hayman and an afterword by leading scientist and space industry veteran Dr. Takaaki Musha, one of the great enigmas of all time is examined with equal doses of open-mindedness and skepticism. This book includes never-before-mentioned accounts of popular UFO topics like Area 51, Roswell and alien abduction claims, as well as tackling less reported subjects such as Nazi and Japanese antigravity experiments and even rarer theories involving quantum physics and lost civilizations of the ancients. What do all the sightings of UFO's around the world reveal? Who is covering up the existence of these strange craft in our skies? And are the technologies manmade or extraterrestrial in origin? Forget what you think you already know and prepare to be surprised. For those searching for the truth about these exotic technologies and wanting to know why they are being concealed from the public, ANTIGRAVITY PROPULSION is a must read.

The Wall of Light

An investigation into the ancient technologically advanced artifacts amassed by Father Carlo Crespi and how they offer proof of Atlantis in South America • Includes photos and descriptions of the strange machines and beautiful artifacts that once comprised the "Crespi Treasure" • Connects Crespi's treasures to readings by Edgar Cayce and Annie Besant's descriptions of Atlantean colonies in Ecuador • Reveals the nuclear war between the Atlanteans and the Aryans and the radioactive evidence left behind in the Bahamas and Pakistan In 1923 an Italian priest, Father Carlo Crespi, came to Ecuador as a missionary. Befriending the indigenous Shuar people, he learned of an ancient treasure they had sworn to protect hidden within a network of underground tunnels. As newly converted Christians, the Shuar wanted to share with their priest these amazing anachronistic

artifacts--golden sarcophagi from Egypt, bronze plaques depicting famous scenes from antiquity bearing both Quechua and Phoenician writing, copper wheels and gears as hard as steel, strange machines, and many other inexplicable items. Crespi faithfully maintained the collection until just before his death when the Ecuadorian government purchased it from the church and many of these priceless treasures were lost forever. Providing detailed descriptions and his own photos of the advanced technologies and beautiful art that comprised the "Crespi Treasure," Richard Wingate reveals that the ancient civilization responsible for these advanced artifacts was Atlantis. Connecting Crespi's treasures to Edgar Cayce's descriptions of advanced technology in the distant past and the Atlantean colonies of Ecuador described by Annie Besant, Wingate explores other evidence of Atlantis in South America and the Bahamas, including geographically out-of-place underwater ruins and buried magnetic ore. Investigating ancient records, such as the Mahabharata, he shows how a prehistoric nuclear war between the Atlanteans and the Aryans ultimately resulted in the sinking of Atlantis, and he uncovers the radioactive archaeological evidence left behind. Explaining how our ancient ancestors regretted their nuclear actions and destroyed or buried their advanced technology, entering into a self-imposed Stone Age, he shows how our civilization is headed down the same path and that only through "green" choices can we avoid the same fate as Atlantis.

New York Times best-selling author and Secret Space Program researcher Mike Bara brings us this lavishly illustrated volume on alien structures on Mars. Was there once a vast, technologically advanced civilization on Mars, and did it leave evidence of its existence behind for humans to find eons later? Did these advanced extraterrestrials vanish in a solar system-wide cataclysm of their own making, only to make their way to Earth and start anew? Was Mars once as lush and green as the Earth, and teeming with life? Did Mars once orbit a missing member of the solar system, a "Super Earth" that vanished in a disaster that devastated life on Earth and Venus and left us only the asteroid belt as evidence of its once grand existence? Did the survivors of this catastrophe leave monuments and temples behind, arranged in a mathematical precision designed to teach us the Secret of a new physics that could lift us back to the stars? Does the planet have an automated defense shield that swallows up robotic probes if they wander into the wrong areas? And are the lights still on down there, deep below the sands of Mars, just waiting for us to uncover them? Mike Bara examines all these questions and more in this astounding book, full of fascinating information on the following topics: Mars as the Abode of Life What Happened to Mars? The Tesla Papers

Clean, sustainable energy solutions from the geniuses of our past and the visionaries of our future • Explores five great but nearly forgotten minds of the past--John Worrell Keely, Nikola Tesla, Viktor Schauberger, Royal Raymond Rife, and T. Townsend Brown--and their revolutionary discoveries • Reveals information from leading experts on cold fusion, zero-point energy, power from water, antigravity, and the free-energy potential of the Searl Effect Generator As the global need for clean, renewable energy grows and the shortage of viable large-scale solutions continues, it is time to look to the geniuses of our past and the visionaries of our future for answers. Taking inspiration from Albert Einstein's statement that "Problems cannot be solved by the same level of thinking that created them," Finley Eversole explains that the key to a pollution- and poverty-free future of infinite energy lies not in pursuing one single method, but in investigating all the possibilities--in uniting as a world in creative pursuit of global transformation. Exploring five nearly unknown geniuses of our past--John Worrell Keely, Nikola Tesla, Viktor Schauberger, Royal Raymond Rife, and T. Townsend Brown--and their revolutionary discoveries about free energy, electricity, water vortex motion, electric ray and super-microscope technology, and antigravity, this book helps to restore their long-suppressed scientific legacies and bring us one step closer to the destiny they foresaw. Eversole has gathered research from

leading experts on cold fusion, zero-point energy, power from water, and the free-energy potential of the Searl Effect Generator to reveal technologies that work with Nature's laws and that, if fully implemented, could establish sustainable energy systems in a single generation.

The Anti-Gravity Files

Presents information that antigravity has been and is being seriously investigated by leading aircraft industries as well as the government. The theme is that T T Brown's propulsion method, once developed, will usher in an age of flight so revolutionary it will make all previous aviation the Stone Age of flight. Included are two historical reports from 1956 on electrogravitics ('electrogravity') with an updated article by Dr Paul LaViolette showing "there is substantial evidence that the electrogravitics research of the 1950s actually resulted in the B-2 Stealth Bomber auxiliary propulsion system."

Tapping the Zero Point Energy

Occult Ether Physics

A complete investigation of the development and suppression of antigravity and field propulsion technologies • Reveals advanced aerospace technologies capable of controlling gravity that could revolutionize air travel and energy production • Reviews numerous field propulsion devices that have thrust-to-power ratios thousands of times greater than a jet engine • Shows how NASA participates in a cover-up to block adoption of advanced technologies under military development In Secrets of Antigravity Propulsion, physicist Paul LaViolette reveals the secret history of antigravity experimentation--from Nikola Tesla and T. Townsend Brown to the B-2 Advanced Technology Bomber. He discloses the existence of advanced gravity-control technologies, under secret military development for decades, that could revolutionize air travel and energy production. Included among the secret projects he reveals is the research of Project Skyvault to develop an aerospace propulsion system using intense beams of microwave energy similar to that used by the strange crafts seen flying over Area 51. Using subquantum kinetics--the science behind antigravity technology--LaViolette reviews numerous field-propulsion devices and technologies that have thrust-to-power ratios thousands of times greater than that of a jet engine and whose effects are not explained by conventional physics and relativity theory. He then presents controversial evidence about the NASA cover-up in adopting these advanced technologies. He also details ongoing Russian research to duplicate John Searl's self-propelled levitating disc and shows how the results of the Podkletnov gravity beam experiment could be harnessed to produce an interstellar spacecraft.

Pentagon Aliens

"Lapin draws on raw and often hilariously real stories from her own career -- the good, the bad, and the ugly -- to show what it means to be a "boss" in twelve easy steps. In her refreshingly accessible and relatable style, she first shows how to

embrace the "boss of you" mentality by seizing the power that comes from believing in yourself and expanding your skillset. Then she offers candid no-nonsense advice for how to kill it at as the "boss at work" whether you have a high-up role or not. And finally, for those who want to take the plunge as an entrepreneur, she lays out the nuts and bolts of how to be the "boss of your own business" from raising money and getting it off the ground to hiring a kickass staff and dealing office drama to turning a profit"--

Anti-gravity & the Unified Field

This book introduces a brand new field of scientific research based upon analysis of artifacts retrieved from crashed and damaged UFOs that have come down in Russia and America. For the first time, it reveals the scientific principles behind UFO propulsion dynamics, and shows that these principles are known and recognized by today's physicists. Potter's analyses of these UFO mechanisms are substantiated with references to a broad array of over 300 research papers published in scientific journals! Potter correlates many of the phenomena observed firsthand by close encounter witnesses and abductees and pinpoints the common themes reported, categorizing them according to known physical principles. He produces a comprehensive orchestration of energy dynamics used inside and around UFOs. His precise and lavish illustrations allow the reader to enter directly into the realm of the advanced technological engineer and to understand, quite straightforwardly, the aliens' methods of energy manipulation: their methods of electrical power generation; how they purposely designed their craft to employ the kinds of energy dynamics that are exclusive to space (discoverable in our astrophysics) in order that their craft may generate both attractive and repulsive gravitational forces; their control over the mass-density matrix surrounding their craft enabling them to alter their physical dimensions and even manufacture their own frame of reference in respect to time.

Aerospace Propulsion

There are areas of science that are off limits to the public and are not taught in our universities. The science and technology of anti-gravity and extracting energy from space itself was developed in the late 19th and early 20th century by scientists and experimenters like John Worrell Keely, Nicola Tesla, and Thomas Townsend Brown. But today, this science is purposely overlooked and regulated to the world of "Black Projects." The publicly acknowledged space program is but a "smoke screen" to hide a secret space program, overseen by NSA, the CIA and a secret branch of the U.N., that is so secret that even some U.S. Presidents and Congressional oversight committees are not even aware of it. Secret Science and the Secret Space Program will document and provide an in depth look at this secret science and technology and the secret space program that has already colonized Mars, built bases on our Moon and other planet's moons and given us the ability to travel to the stars. "Black" science is so far ahead of acknowledged science that this book will seem like science fiction to many who read it.

Reich of the Black Sun

A new interpretation of nearly 40 years of interstellar signals and the prophetic message they contain • Contains extensive analysis of pulsar data, revealing new ideas about the origins and functions of pulsars • Provides proof of an extraterrestrial communication network • Includes information about the formation of crop circles and force-field-beaming technology In 1967, astronomers began receiving and cataloging precisely timed radio pulses from extraterrestrial sources, which they called pulsars. These pulsars emit laserlike radio beams that penetrate through space much like searchlight beams. Paul LaViolette, who has been researching pulsars for over 25 years, shows that while these pulsars have long been assumed to be spinning stars, the true nature of these radio sources has been grossly misunderstood. In *Decoding the Message of the Pulsars*, LaViolette shows that pulsars are distributed in the sky in a nonrandom fashion, often marking key galactic locations, and that their signals are of intelligent origin. Using extensive scientific data to corroborate his theory, he presents evidence of unusual geometric alignments among pulsars and intriguing pulse-period relationships. Equally compelling is the message LaViolette contends is being sent by these extraterrestrial beacons: a warning about a past galactic core explosion disaster that could recur in the near future.

Subquantum Kinetics

There is a new and exciting revolution coming. It will dramatically change our landscape, our environment, our economy, and our lives. It will provide each and every one of us with a truly unique sense of independence. It will mark the end of oil-influenced politics, and the beginning of a bright new millennium - a time in which we all will have our own unlimited sources of nonpolluting energy. However, it will not come without a struggle, as history has already shown. The Coming Energy Revolution provides us with an intriguing and insightful look at the forces behind the free-energy movement. The Coming Energy Revolution introduces us to some of the inventors, both past and present, who have insisted that we are surrounded by a sea of energy that we can tap once we have learned nature's secrets. Conventional science says that space is cold and still, and that what energy does exist cannot be put to useful work. The new-energy innovators say that conventional science is wrong, and that new-energy research is being suppressed by a combination of scientific inertia and corporate self-interest. But the suppression cannot last, as this book shows - there are simply too many inventors who are close to new-energy breakthroughs. The Coming Energy Revolution examines the technologies on which these inventors are working. There are magnets that can redirect the energy of space. There is a gentler form of nuclear energy that can take place on a table top. There is hydrogen, a clean, abundant fuel that can be produced wherever needed. There is a form of hydropower that does not rely on massive dams. And there are other forms of new energy. The Coming Energy Revolution looks at them all, and at the kinds of changes that will be needed to overcome the roadblocks between our old-energy present and our new-energy future.
