A finalist for both the Pulitzer Prize and the National Book Award in Poetry—a collection that examines the myth and history of the prizefighter Jack Johnson The legendary Jack Johnson (1878–1946) was a true American creation. The child of emancipated slaves, he overcame the violent segregationism of Jim Crow, challenging white boxers—and white America—to become the first African-American heavyweight world champion. The Big Smoke, Adrian Matejka’s third work of poetry,

follows the fighter's journey from poverty to the most coveted title in sports through the multi-layered voices of Johnson and the white women he brazenly loved. Matejka's book is part historic reclamation and part interrogation of Johnson's complicated legacy, one that often misremembers the magnetic man behind the myth.

The Han Solo Adventures

This book addresses smoke management in enclosures and provides a platform for understanding the principles of smoke propagation and spread, heat release rate, and the effect of sprinklers on suppression. Considering how sprinkler systems have become a vital part of firefighting systems in enclosures, the book evaluates the effect of sprinkler activation on the behavior of fire-induced smoke and the interaction of water particles with the smoke layer. It studies two base case models where the sprinklers' effect on the fire curve was considered. This base case was assessed with two smoke extraction systems, namely, a ducted system and an impulse ventilation system. By focusing on key elements, such as visibility, ceiling height, and fire curve, the results of the study will be of interest to mechanical engineers, HVAC professionals, and fire safety professionals and investigators. Features Includes case models and scenarios to evaluate real examples from

"At first I'm calm as the trees fall. But suddenly a rat's nest of wood, bent horizontal and cribbed into the trees above us, comes down in a rush of a hundred machine gun snaps. Trees caught in the nest flail around before hitting the ground. Our eyes dart everywhere, trying to keep track of every moment. Trees break free and swing themselves like catapults. Splintered chunks of wood slash through the air like propellers Falling trees is the most dangerous job in North America." --Aaron Williams British Columbia's weather and geography--hot dry summers, steep terrain, and population density in forested areas--make it one of the most difficult places in the world to fight forest fires. Chasing Smoke is an enthralling insider-account of how a fire season unfolds. Experienced firefighter Aaron Williams offers a tangible window into the intensely physical, high-adrenalin lifestyle shared by his crew of eccentrics, all eager to be on the front line. Williams shares what it's like to work sixteen-hour days in an apocalyptic landscape, where the smoke is so thick your snot runs black and you need to drink ten litres of water a day. What it's like to make a stupid mistake and singe your beard in front of your crew, or spend hours hosing a spot the size of a queen mattress and still not extinguish the burn. What it's like to hear a tree fall, a co-worker's shout, and imagine the worst. From the "curated gauntlet of abuse" that makes up rookie week, until the last length of hose is rolled up at the end of the burn season, Williams chronicles the seasonal existence of a firefighter, all while examining the wider world of firefighting--interweaving the history, mechanics and politics--as well as the micro-world of the small crew who willingly put their lives on the line.

#1 NEW YORK TIMES BESTSELLER • OPRAH'S BOOK CLUB PICK • From the National Book Award-winning author of *Between the World and Me*, a boldly conjured debut novel about a magical gift, a devastating loss, and an underground war for freedom. "This potent book about America's most disgraceful sin establishes [Ta-Nehisi Coates] as a first-rate novelist."—San Francisco Chronicle IN DEVELOPMENT AS A MAJOR MOTION PICTURE • Adapted by Ta-Nehisi Coates and Kamilah Forbes, produced by MGM, Plan B, and Oprah Winfrey's Harpo Films NOMINATED FOR THE NAACP IMAGE AWARD • NAMED ONE OF PASTE'S BEST NOVELS OF THE DECADE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Time • NPR • The Washington Post • Chicago Tribune • Vanity Fair • Esquire • Good Housekeeping • Paste • Town & Country • The New York Public Library • Kirkus Reviews • Library Journal Young Hiram Walker was born into bondage. When his mother was sold away, Hiram was robbed of all memory of her—but was gifted with a mysterious power. Years later, when Hiram almost drowns in a river, that same power saves his life. This brush with death births an urgency in Hiram and a daring scheme: to escape from the only home he's ever known. So begins an unexpected journey that takes Hiram from the corrupt grandeur of Virginia's proud plantations to desperate guerrilla cells in the wilderness, from the coffin of the Deep South to dangerously idealistic movements in the North. Even as he's enlisted in the underground war between slavers and the enslaved, Hiram's resolve to rescue the family he left behind endures. This is the dramatic story of an atrocity inflicted on generations of women, men, and children—the violent and capricious separation of families—and the war they waged to simply make lives with the people they loved. Written by one of today's most exciting thinkers and writers, *The Water Dancer* is a propulsive, transcendent work that restores the humanity of those from whom everything was stolen. Praise for *The Water Dancer* "Ta-Nehisi Coates is the most important essayist in a generation and a writer who changed the national political conversation about race with his 2015 memoir, *Between the World and Me*. So naturally his debut novel comes with slightly unrealistic expectations—and then proceeds to exceed them. *The Water Dancer* . . . is a work of both staggering imagination and rich historical significance. . . . What's most powerful is the way Coates enlists his notions of the fantastic, as well as his fluid prose, to probe a wound that never seems to heal. . . . It all started in London. More than fifty years ago, a generation of teens created something that would change the face of music forever. London, Reign Over Me immerses us in the backroom clubs, basement record shops, and late-night faint radio signals of 1960s Britain, where young hopefuls like Peter Frampton, Dave Davies, and Mick Jagger built off American blues and jazz to form a whole new sound. Author Stephen Tow weaves together original interviews with over ninety musicians and movers-and-shakers of the time to uncover the uniquely British story of classic rock’s birth. Capturing the stark contrast of bursting artistic energy with the blitzkrieg landscape leftover from World War II, London, Reign Over Me reveals why classic rock ‘n’ roll could only have been born in London. A new sound from a new generation, this music helped spark the most important cultural transformation of the twentieth century. This text shows that we have the scientific tools to reveal the connection between environment and disease in a way never before possible, and even to predict which chemicals pose the greatest risk. We no longer need to wait for actual human harm as the only proof of harmfulness. Davis describes how the science of environmental epidemiology arose and how environmental toxins affect a broad spectrum of human health, including breast cancer, the health and development of the lungs and even male reproductive capacity. The book shows readers the full picture of how the environment is affecting their health, what they can do about it and why standard approaches to public health need to change.

Smoke on the Water

These days Deep Purple's 'Smoke on the Water' is such a ubiquitous rock anthem that it almost seems as if it's been out there forever. Yet the story of how this most famous of metal tracks came into being is shot-through with chance incidents, any one of which could have seen the recording stifled at birth, leaving music writers to scabble about for another "best riff of all time" contender (and five hard-working musicians considerably less well-off.) Fire in the Sky looks in detail at this crucial period in Deep Purple's history and the making of their break-through album 'Machine Head'. The basic fact that a fire destroyed the Montreux Casino during a Frank Zappa concert is well known to most music fans, leaving Deep Purple to find somewhere else to record, but this book brings much new information to light. And although 'Smoke On The Water' was laid down while the Swiss Police hammered at the door of a roller skating rink, the band were then forced to move again, ending up at the Grand Hotel where they built a studio in the corridors using old mattresses and egg cartons for sound-proofing. In the chaos, 'Smoke on the Water' was almost forgotten. The band only roughed it out as something to play to their Montreux host, Jazz festival organiser Claude Nobs, who told them it was far too good to leave in the can. This book looks back at the events which led up to Deep Purple's bizarre and Heath Robinson-esque 'Machine Head' recording sessions in the winter of 1971. And as for that "hit to be"; 'Smoke On The Water' was not even tried out on stage, and might never have been played live at all were it not for a request from the BBC for a radio session. It went on to sell 12 million copies when issued as a single in 1973 and is probably the only record to ever generate a gold disc presented to a city. And yes, there really is a music shop in London which threatens to fine budding guitarists should they dare to try out the riff in-store. And in these times of economic hardship, isn't it inspiring to know that punitive tax rates back home were responsible for Deep Purple being in Montreux in the first place? The book moves on through 1972 and takes in the subsequent debilitating American tours where 'Machine Head' quickly became a massive selling album, even as the relentless gigging pulled Deep Purple apart. Memorabilia and many rare and unseen photographs illustrate the story, including remarkable images of the Casino fire and aftermath, and Ian Gillan with his notepad writing the lyrics to 'Smoke On The Water' in the studio. Members of the band have spoken, as well as associated crew and studio staff. The music and gigs are covered while appendices include tour dates and a discography, as well as a map showing the sites connected with the recordings. Several myths are also laid to rest: Many fans trekking to Montreux visit the wrong Grand Hotel altogether, while down the road the wealthy owners of luxury apartments sit blithely unaware of the musical history made in their living rooms. During

research for this book the authors revisited the site of the recordings in Montreux with bass player Roger Glover to gain a unique insight into the album's history. As a result of this visit locals are preparing a heritage plaque to mark the site.

From their progressive roots with The Book of Taliesyn, to the classic albums In Rock, Fireball, Machine Head, and Made in Japan, Deep Purple epitomized the sound of hard rock for a whole generation. Michael Heatley's account of one of the bestselling British rock acts of all time looks in detail at every album of the band's original incarnation, from Shades of Deep Purple to Come Taste the Band and Made in Europe. Heatley also covers the recording sessions and the tours, the comings and goings of band personnel, the feuds between Ritchie Blackmore and Ian Gillan, and the final break-up. The career of each band member after the split is also covered (Whitesnake, Rainbow, and more), as well as what may lie in the future for Deep Purple and their fans.

Epic fantasy featuring warrior priestesses, and fickle gods at war, for readers of Brian Staveley's Chronicles of the Unhewn Throne. Hessa is an Eangi: a warrior priestess of the Goddess of War, with the power to turn an enemy's bones to dust with a scream. Banished for disobeying her goddess's command to murder a traveller, she prays for forgiveness alone on a mountainside. While she is gone, raiders raze her village and obliterate the Eangi priesthood. Grieving and alone, Hessa - the last Eangi - must find the traveller and atone for her weakness and secure her place with her loved ones in the High Halls. As clans from the north and legionaries from the south tear through her homeland, slaughtering everyone in their path Hessa strives to win back her goddess' favour. Beset by zealot soldiers, deceitful gods, and newly-awakened demons at every turn, Hessa burns her path towards redemption and revenge. But her journey reveals a harrowing truth: the gods are dying and the High Halls of the afterlife are fading. Soon Hessa's trust in her goddess weakens with every unheeded prayer. Thrust into a battle between the gods of the Old World and the New, Hessa realizes there is far more on the line than securing a life beyond her own death. Bigger, older powers slumber beneath the surface of her world. And they're about to wake up.

Weber's Smoke

From 1954 to 1984, the media made rock n' roll an international language. In this era of rapidly changing technology, styles and culture changed dramatically, too. In the 1950s, wild-eyed Southern boys burst into national consciousness on 45 rpm records, and then 1960s British rockers made the transition from 45s to LPs. By the 1970s, rockers were competing with television, and soon MTV made obsolete the music-only formats that had first popularized rock n' roll.
