Lovecraft's Works

"The oldest and strongest emotion of mankind is fear, and the oldest and strongest kind of fear is fear of the unknown." --H. P. LOVECRAFT, "Supernatural Horror in Literature" Howard Phillips Lovecraft forever changed the face of horror, fantasy, and science fiction with a remarkable series of stories as influential as the works of Poe, Tolkien, and Edgar Rice Burroughs. His chilling mythology established a gateway between the known universe and an ancient dimension of otherworldly terror, whose unspeakable denizens and monstrous landscapes--dread Cthulhu, Yog-Sothoth, the Plateau of Leng, the Mountains of Madness--have earned him a permanent place in the history of the macabre. In Tales of the Cthulhu Mythos, a pantheon of horror and fantasy's finest authors pay tribute to the master of the macabre with a collection of original stories set in the fearsome Lovecraft tradition:

The Burrowers Beneath

He is not to open the door which leads to the strange time and place, nor to invite Him Who lurks at the threshold " went the warning in the old family manuscript that Ambrose Dewart discovered when he returned to his ancestral home in the deep woods of rural Massachusetts. Dewart's investigations into his family's sinister past eventually lead to the unspeakable revelations of The Great Old Ones who wait on the boundaries of space and time for someone to summon them to earth. Acclaimed cult horror writer H. P. Lovecraft's notes and outlines for this tale of uncanny terror were completed by August Derleth, his friend and future publisher. Of the many Lovecraft-Derleth "posthumous collaborations," The Lurker at the Threshold remains the most popular, having sold 50,000 copies in its previous edition alone.

Eldritch Tales

The Horror in the Museum By H.P. Lovecraft ren't made for human beings, and their size bothered us. Anyway, it was devilish heavy. We had to have the Americans down to get It out. They weren't anxious to go into the place, but of course the worst thing was safely inside the box. We told them it was a batch of ivory carving--archeological stuff; and after seeing the carved throne they probably believed us. It's a wonder they didn't suspect hidden treasure and demand a share. They must have told queer tales around Nome later on; though I doubt if they ever went back to those ruins, even for the ivory throne." Rogers paused, felt around in his desk, and produced an envelope of good-sized photographic prints. Extracting one and laying it face down before him, he handed the rest to Jones. The set was certainly an odd one: ice-clad hills, dog sledges, men in furs, and vast tumbled ruins against a background of snow--ruins whose bizarre outlines and enormous stone blocks could hardly be accounted for. One flashlight view showed an incredible interior We are delighted to publish this classic book as part of our extensive Classic Library collection. The Whisperer in Darkness

At the Mountains of Madness is a science fiction-horror novella by American author H. P. Lovecraft, written in February/March 1931 and rejected that year by Weird Tales editor Farnsworth Wright on the grounds of its length. It was originally serialized in the February, March, and April 1936 issues of Astounding Stories. It has been reproduced in numerous collections. The story details the events of a disastrous expedition to the Antarctic continent in September 1930, and what was found there by a group of explorers led by the narrator, Dr. William Dyer of Miskatonic University. Throughout the story, Dyer details a series of previously untold events in the hope of deterring another group of explorers who wish to return to the continent.

The King in Yellow

WIKIPEDIA says: 'H.P. Lovecraft's reputation has grown tremendously over the decades, and he is now commonly regarded as one of the most important horror writers of the 20th century, exerting an influence that is widespread, though often indirect.' His tales of the tentacled Elder God Cthulhu and his pantheon of alien deities were initially written for the pulp magazines of the 1920s and '30s. These astonishing tales blend elements of horror, science fiction and cosmic terror that are as powerful today as they were when they were first published. THE NECRONOMICON collects together the very best of Lovecraft's tales of terror, including the complete Cthulhu Mythos cycle, just the way they were originally published. It will introduce a whole new generation of readers to Lovecraft's fiction, as well as being a must-buy for those fans who want all his work in a single, definitive volume.

Gothic fiction's focus on the irrational and supernatural would seem to conflict with science fiction's rational foundations. However, as this novel collection demonstrates, the two categories often intersect in rich and revealing ways. Analyzing a range of works—including literature, film, graphic novels, and trading card games—from the past three decades through the lens of this hybrid genre, this volume examines their engagement with the era's dramatic changes in communication technology, medical science, and personal and global politics.

Tales of the Cthulhu Mythos

This collection of essays discusses genre fiction and film within the discursive framework of the environmental humanities and analyses the convergent themes of spatiality, climate change, and related anxieties concerning the future of human affairs, as crucial for any understanding of current forms of “weird” and “fantastic” literature and culture. Given their focus on the culturally marginal, unknown, and “other,” these genres figure as diagnostic modes of storytelling, outlining the latent anxieties and social dynamics that define a culture’s “structure of feeling” at a given historical moment. The contributions in this volume map the long and continuous tradition of weird and fantastic fiction as a seismograph for eco-geographical turmoil from the nineteenth to the twenty-first century, offering innovative and insightful ecocritical readings of H. P. Lovecraft, Harriet Prescott Spofford, China Miéville, N. K. Jemisin, Thomas Ligotti, and Jeff VanderMeer, among others.

The H.P. Lovecraft Omnibus 3

In Providence, Rhode Island, a dangerous inmate disappears from a hospital for the insane. At Miskatonic University, a professor slumps into a five-year reverie. In a mysterious and vivid dreamworld, a melancholy man seeks the home of the gods. And in the frozen wasteland of Antarctica, polar explorers unearth secrets that reveal a past almost beyond comprehension--and a future too terrible to imagine. Graphic novelist I.N.J. Culbard gives terrifying form to four classic tales by H.P. Lovecraft: "The Dream-Quest of Unknown Kadath," "The Case of Charles Dexter Ward," "At The Mountains of Madness," and "The Shadow Out of Time." Expertly adapted and beautifully drawn, Culbard's lean and thrilling adaptations breathe new life into four stories that helped to reinvent the horror genre.

Fall of Cthulhu Omnibus

Toward the end of the year 1920 the Government of the United States had

practically completed the programme, adopted during the last months of President Winthrop's administration. The country was apparently tranquil. Everybody knows how the Tariff and Labour questions were settled. The war with Germany, incident on that country's seizure of the Samoan Islands, had left no visible scars upon the republic, and the temporary occupation of Norfolk by the invading army had been forgotten in the joy over repeated naval victories, and the subsequent ridiculous plight of General Von Gartenlaube's forces in the State of New Jersey. The Cuban and Hawaiian investments had paid one hundred per cent and the territory of Samoa was well worth its cost as a coaling station. The country was in a superb state of defence. Every coast city had been well supplied with land fortifications; the army under the parental eye of the General Staff, organized according to the Prussian system, had been increased to 300,000 men, with a territorial reserve of a million; and six magnificent squadrons of cruisers and battle-ships patrolled the six stations of the navigable seas, leaving a steam reserve amply fitted to control home waters. The gentlemen from the West had at last been constrained to acknowledge that a college for the training of diplomats was as necessary as law schools are for the training of barristers; consequently we were no longer represented abroad by incompetent patriots. The nation was prosperous; Chicago, for a moment paralyzed after a second great fire, had risen from its ruins, white and imperial, and more beautiful than the white city which had been built for its plaything in 1893. Everywhere good architecture was replacing bad, and even in New York, a sudden craving for decency had swept away a great portion of the existing horrors. Streets had been widened, properly paved and lighted, trees had been planted, squares laid out, elevated structures demolished and underground roads built to replace them. The new government buildings and barracks were fine bits of architecture, and the long system of stone quays which completely surrounded the island had been turned into parks which proved a god-send to the population. The subsidizing of the state theatre and state opera brought its own reward. The United States National Academy of Design was much like European institutions of the same kind. Nobody envied the Secretary of Fine Arts, either his cabinet position or his portfolio. The Secretary of Forestry and Game Preservation had a much easier time, thanks to the new system of National Mounted Police. We had profited well by the latest treaties with France and England; the exclusion of foreign-born Jews as a measure of self-preservation, the settlement of the new independent negro state of Suanee, the checking of immigration, the new laws concerning naturalization, and the gradual centralization of power in the executive all contributed to national calm and prosperity. When the Government solved the Indian problem and squadrons of Indian cavalry scouts in native costume were substituted for the pitiable organizations tacked on to the tail of skeletonized regiments by a former Secretary of War, the nation drew a long sigh of relief. When, after the colossal Congress of Religions, bigotry and intolerance were laid in their graves and kindness and charity began to draw warring sects together, many thought the millennium had arrived, at least in the new world which after all is a world by itself.

Solomon Kane: The Original Marvel Years Omnibus

This supplement to the two-volume Pulp-Lit Omnibus Collection of the work of H.P. Lovecraft presents all the works of weird fiction which he ghostwrote or on which

he collaborated with another author. Highlights of this volume include: - Under the Pyramids, with Harry Houdini; - The Mound, with Zealia Bishop; - Two Black Bottles, with Wilfred Blanch Talman; - The Horror in the Burying-Ground, with Hazel Heald; - The Disinterment, with Duane W. Rimel; - The Night Ocean, with Robert Barlow; - In the Walls of Eryx, with Kenneth J. Sterling; - The Electric Executioner, with Adolphe de Castro; - The Diary of Alonzo Typer, with William Lumley; - And over 20 more. Although none of them rise to the level of quality of Lovecraft's own by-lined work, the majority of these collaborations are still wonderful stories. They have a real contribution to make to the meta-story of Lovecraft's creative life; and they reveal aspects to Lovecraft's personality and especially his sense of humor that his more serious works seldom allow us to glimpse. The reason for this is easily understood. When writing or revising a story for another writer, Lovecraft was able to fully relax. He knew (or thought he knew) that these stories would not affect his reputation as a literary figure; his name was not on them. So the terrible tension that dogged him throughout his literary life, the tension that kept him in a state of virtual creative paralysis for the last several years of his life, fell away like an old cloak, and his real style -- his relaxed, chatting-with-friends style -- was able to shine through. In these collaborative stories we get to see glimpses of Lovecraft's wry humor, kindly and benevolent but edged with a gently sardonic erudition. We also get to roll in the kind of over-the-top campiness that one just doesn't see in most of his bylined stuff (after "Herbert West, Reanimator," that is) to the point where one wonders if he's secretly engaging in a little self-parody. One of the reasons Lovecraft's output was so scant was that his almost obsessive perfectionism and severe self-criticism kept him diligently polishing and perfecting his own stories long past the point at which it made sense to continue doing so. This he could certainly not afford to do in a work-for-hire job that would pay him only \$15 or \$20. So in these anonymized stories we get to see Lovecraft's work as it might have appeared in his second or third drafts -- rough, sometimes unsubtle, often crammed with all-too-familiar buzzwords like "eldritch" and "cyclopean," yet eminently, fundamentally, and wonderfully Lovecraftian.

The Complete Weird Tales of H. P. Lovecraft

This early work by Robert E. Howard was originally published in the 1929 and we are now republishing it with a brand new introductory biography. 'Skull-Face' is one of Howard's stories featuring the character Sailor Steve Costigan and his hashish addiction. Robert Ervin Howard was born in Peaster, Texas in 1906. During his youth, his family moved between a variety of Texan boomtowns, and Howard -- a bookish and somewhat introverted child -- was steeped in the violent myths and legends of the Old South. At fifteen Howard began to read the pulp magazines of the day, and to write more seriously. The December 1922 issue of his high school newspaper featured two of his stories, 'Golden Hope Christmas' and 'West is West'. In 1924 he sold his first piece -- a short caveman tale titled 'Spear and Fang' -- for \$16 to the not-yet-famous Weird Tales magazine. Howard's most famous character, Conan the Cimmerian, was a barbarian-turned-King during the Hyborian Age, a mythical period of some 12,000 years ago. Conan featured in seventeen Weird Tales stories between 1933 and 1936 which is why Howard is now regarded as having spawned the 'sword and sorcery' genre. The Conan stories have since been adapted many times, most famously in the series of films starring Arnold Schwarzenegger.

At The Mountains Of Madness

Eldritch Tales

Lovecraft's terrifying tales have influenced generations of horror writers. His otherworldly visions of cosmic horrors, alien beings, and a world not quite our own remain immensely powerful and able to terrify even the most resolute readers. This collection spans the breadth of Lovecraft's literary career, from his early forays into the Dreamlands to his mature writings of the Cthulhu mythos. H. P. Lovecraft's petrifying yet fascinating stories took their inspiration from a multitude of literary influences, including the mysterious Arabian Nights, the capricious deities and heroes of Greek mythology, and the lyrical horrors of the gothic tales told to him by his grandfather. His writing gave voice to the belief that there are some things in this world that can never be understood. This collection features several of H. P. Lovecraft's most iconic tales, including: The Call of Cthulhu The Whisperer in Darkness The Thing on the Doorstep The Lurking Fear The Shadow Over Innsmouth The Shunned House From Beyond Pickman's Model The Nameless City The Dreams in the Witch House
