Pink Ribbon Stories

"Young Goodman Brown" is a short story published in 1835 by American writer Nathaniel Hawthorne. The story takes place in 17th-century Puritan New England, a common setting for Hawthorne's works, and addresses the Calvinist/Puritan belief that all of humanity exists in a state of depravity, but that God has destined some to unconditional election through unmerited grace. Hawthorne frequently focuses on the tensions within Puritan culture, yet steps his stories in the Puritan sense of sin. In a symbolic fashion, the story follows Young Goodman Brown's journey into self-scrutiny, which results in his loss of virtue and belief.

Dear God, They Say It's Cancer

Following her diagnosis of an aggressive form of metastatic breast cancer, Norma Woody found herself the bearer of two seemingly unendurable burdens: the knowledge that she was dying, and the realization that too much of the life she had

left would be spent in solitude and pain. Yet as the door to her physical life was closing, a window to her inner life was flung open. In her time spent alone wrestling with thoughts and disappointments, Norma found solace in writing, and was able to explore her creative mind and unlock feelings long denied her. In the process, she plumbed new depths of forgiveness, releasing expectations and uncovering within herself a greater childlike wonder for the world and a deeper respect for the God she had always believed in. Impressions Behind the Pink Ribbon is her record of that journey through hardship to peace, and it stands as a gift bestowed in unending faith and love.

A Journey in East Africa

A wide-ranging collection of essays that cuts to the heart of the Mexican-American experience by an important voice in contemporary writing. Years later, he has won widespread acclaim as a crucial and compelling voice in contemporary American letters. Readers will find 36 essays divided into four sections titled "Culture Crossing," "Cortes and Malinche," "The Writing Life," and "Working Life and La Family." Tackling everything from cockfighting to Cormac McCarthy, Gritos collects Gilb's essays and his popular commentaries for NPR's Fresh Air, offering a startling portrait of an artist—and a Mexican-American—working to find his place in both the cloistered literary world and the world at large, to say nothing of his strange and beloved borderland of Texas. While "Dagoberto Gilb might be speaking for himself . . . he speaks so well that what he says becomes

universal.” (Houston Chronicle). “An arresting essayist seductive storytelling skills infuse his astute observations, reminiscences, and critiques with compelling energy and momentum.” —Kirkus Reviews

In her battle with cancer, Sarah discovered that in order to move forward, we must start from a place of vulnerability. Sarah's ups and downs allow the women reading *Pink Is the New Black*, even those still reeling from their diagnosis or hurting from their treatment, even those who find no hope, to recognize that they can't make it through this battle on their own. Sarah's youth and energy differentiate her book from other breast cancer books. She experienced breast cancer at a younger age than most women she was newly married and hadn't yet had children. Readers will grieve along with Sarah at each new roadblock, cheer with each breakthrough, and know her as a sister by the end of the book."

Pink Ribbon Blues

Each of us has at least once in our lifetime come into contact with nurses of all backgrounds, whether in the course of being cared for or while they care for our family and friends. More often than not, we have seen nurses as what they truly are: compassionate professionals who often go above and beyond the call of duty in an unequivocally selfless manner. But not many of us have taken time to ponder over the challenges nurses confront, the experiences they encounter, and the stories that come with these opportunities to change peoples lives and be sometimes changed in the course of doing so. This book, *Nursing Stories: Ordinary People, Extraordinary Journey*, chronicles the challenges nurses face, the camaraderie they share, the experiences they have, and their unfaltering desire to make a difference. Many nurses of diverse specialties working across the globe have, in this book, succinctly told their stories, experiences, and challenges, not only to promote nursing as a profession in which one can make a difference, but also as one in which the difference one makes can help shape ones outlook on life. Every new page in this book highlights that while nurses try to change lives, a lot of them end up being changed themselves. *Nursing Stories: Ordinary People, Extraordinary Journey* is a compilation of actual life-transforming stories that range from subtly hilarious stories to confronting clinical experiences. Some of the stories are intriguing, challenging, inspiring, scary, or outright inconceivable. Welcome to the world of nursing, welcome to *Nursing Stories: Ordinary People, Extraordinary Journey*.

The Gift of Cancer

The Irish sketch book. Notes of a journey from Cornhill to grand Cairo

This is a book of collected poetry, art work, and a short story that started about twelve years ago. The poetry started with a simple muse. A thought that required no thought what-so-ever. The inspiration and the desire started with a girl sitting in the same classroom, later writing became a pleasant way to pass the time. The art work started with a severe case of writers block, which lead to drawing lines on paper. It isnt really supposed to look like anything, just whatever is seen in the eye of the beholder. The short story came about from the passing of someone that was dear to the heart. A grandma, who prayed every day for a grandson she barely even knew. The Pink Ribbon is a short story about a little girl with a pink ribbon tied in her hair, fear, and death. There are two wishes that are made with this book. Helping those with cancer is the first. Weather it is the treatment, care, or cure. A percentage of the authors proceeds will go to helping those that suffer from cancer. The second wish is helping the author find The Muse; the girl, who is now a woman, which first inspired and

encouraged him to write over a decade ago.

Journey to the River Sea

Becoming part of the Ribbon, My personal journey is just that. It tells, in detail, what I went through during my whole process of getting breast cancer. I have always said that it is all in the attitude and now I can live to tell how true that is. I can remember saying to my Mom, "Let's try to have as much fun with this journey as we can" and I can say that I did do that. I hope that this book gives other women that are diagnosed the courage and strength to get through this terrible disease.

After Brenda's third cancer diagnosis and being told she had a year to live, she boldly stepped away from the accepted medical model, said "no" to chemotherapy, and chose alternative treatment. The Pink Ribbon Path

"The only real pink I knew was the dark pink of my double mastectomy scars." - from the Introduction This is the true story of how Laura Chamberlin, an art therapist diagnosed with breast cancer at the age of twenty-eight, survived diagnosis, treatment, and recovery while still forging her career path, maintaining relationships, and seeking true love. Her story begins in 2010, pre-diagnosis, with a journal entry relaying her relief after hearing from her doctor that the lump she felt in her breast was nothing to worry about. Nothing could have been further from the truth. Through journal entries, reflections, photographs, and artwork, Laura's journey takes shape as she faces disease, pain, hair loss, exhaustion, heartbreak, family members, and a multitude of obstacles. Pushing the boundaries of the memoir, Underneath the Pink Ribbon also unravels the hypocrisy and damaging effects of the ubiquitous pink ribbon. Challenging readers to see beyond the pretty pink products and look directly at the reality of breast cancer, this is a book not only for the person who has endured cancer. This is a book for the loved one who's not sure what to say or do; it is for the doctor who has dozens of patients but who has never suffered what they are going through; it is for the art therapist who will find inspiration from Laura's own use of art therapy on herself; it is for the consumer who sees pink every October; and it is for the twenty- or thirty-something woman who, like Laura did, feels lost on her path and who will find solace in these pages. Underneath the Pink Ribbon reaches out to the reader with the same raw honesty that cancer forces upon the body, the mind, the spirit. You will come away from reading this changed; not only in how you look at breast cancer, but in your approach to life. Laura's continued persistence and, at times, hilariously honest frankness will inspire you to speak your truth and tell your story.

A Journey Across South America

Call it a mid-life crisis, but you reach a point where nothing makes sense anymore. Not the goals you set yourself, the years focussed on trying to achieve them, what was let go, what was gained along the way. You look back and think, Is that it? Then you get sick. And everything changes.' This startlingly honest and often hilarious memoir from one of Ireland's best-loved comediennes is told through the lens of cancer treatment and its aftermath. From the moment when she heard but didn't necessarily absorb the shocking diagnosis, through the months that followed, Gildea describes the mixed emotion of the journey, at once swept along on its tide and struggling to grapple with its effects. Through depression, comedy, Catholicism, chemotherapy, the bog, emigration, sex, mastectomy, fear and love, *I've Got Cancer, What's Your Excuse?* takes a refreshingly irreverent look at life, the stuff it throws at you, and what you do with it, as it ultimately asks: 'Did cancer save me?'
